Date: September 30, 2019

Addendum No.: 2

City Project: 19-33, "Dried Solids Storage Area"

Plan holders:

Addendum No. 1 directed bidders to the City's website to download CAD drawings for the subject project. Unfortunately, after posting the addendum, I discovered that only PDF files may be posted to the City's website. Therefore, **please ignore and disregard** the links to .dwg files on the City's website, as shown in the screen shot below:

If you are interested in obtaining CAD files, please contact me and I will either email them to you or provide you with a link to download them directly from the City's server.

Sincerely,

Stephen Fremming
Senior Civil Engineer
