MANDATORY COMMERCIAL AND ORGANICS RECYCLING REQUIRED FOR MANY BUSINESSES IN TURLOCK

Businesses in Turlock that generate four cubic yards of waste per week, are required to have both a recycling and organics recycling program to separate and properly dispose of such materials. Businesses who have a self-haul program for recyclables must inform the Municipal Services Department by filling out a questionnaire, which is available on the City's website at www.CityofTurlock.org or at 156 S. Broadway, Ste. 270. To start recycling and/or organics recycling service, businesses

should contact Turlock Scavenger at (209) 668-7274.

WHAT SHOULD BE RECYCLED?

Aluminum and tin cans (must be rinsed free of food contamination), plastic bottles and jugs, cardboard, mixed paper and newspaper are all items that should be placed in the recycling bin. Materials should not be placed in a plastic garbage bag before placing them in the bin and plastic caps and lids should be removed from containers.

WHAT IS CONSIDERED

ORGANIC MATERIAL?

Organic material includes: food scraps and leftovers, food-soiled paper products, plants, leaves, flowers and landscape vegetation.

To find out more about the City's recycling and organics requirements and the services available, visit the City's website at www.CityofTurlock.org or call the Municipal Services Department at (209) 668-5590. To start recycling or organics recycling service, call Turlock Scavenger at (209) 668-7274.

CITY OF TURLOCK SUMMER WATERING SCHEDULE

MARCH 1ST TO OCTOBER 31ST

No watering between the hours of: 9:00am and 7:00pm

WATERING DAYS

ODD numbered address → **WEDNESDAY SUNDAY**

EVEN numbered address → **TUESDAY SATURDAY**

Make sure to set your sprinklers to only run on allowed watering days.

NEED HELP STAYING GREEN?
USE RECYCLED WATER.

Could your lawn and garden use a little help to stay green? The City of Turlock's recycled water fill station provides free recycled water to local residents to water lawns, gardens and landscaped areas. Turlock's recycled water is also available for commercial uses such as soil compaction, dust control, cement mixing, and landscape irrigation. The fill station is a self-serve drive through system located at the Turlock Regional Water Quality Control Facility at 901 S. Walnut Road, and is open Monday-Friday from 8:00 a.m. to 3:00 p.m.

Those interested in utilizing recycled water must first complete an online certification program. The certification program ensures that customers understand state regulations related to recycled water such as, proper and restricted uses of recycled water, procedures for collection and transportation, along with other pertinent information.

Upon completion of the online course, customers must submit a certificate of completion and a completed application to the City of Turlock Municipal Services Department at 156 S. Broadway, Ste. 270, Turlock. Approved applicants will receive an identification card and appropriate labels for their user supplied recycled water containers.

The application for recycled water use can be downloaded from the City of Turlock website at <http://ci.turlock.ca.us/watersewergarbagesservice/waterconservation/recycledwater.asp>, or by picking up a hard copy from the Municipal Services Department.

For questions or additional information, please contact
